- (c)(1) The highest previous rate, if earned in a wage job, is the current rate of the grade and step-rate of the former job on the same type of wage schedule in the wage area in which the employee is being employed, or the actual earned rate, whichever is higher.
- (2) If earned on a General Schedule or another pay system other than the Federal Wage System, it is the current rate for the same grade and rate of that schedule.
- (d) The highest previous rate may be based upon a rate of pay received during a temporary promotion, so long as the temporary promotion is for a period of not less than 1 year. This limitation does not apply upon permanent placement in a position at the same or higher grade.
